# U.S. EXPORT SALES

- Outstanding Export Sales  
(Unshipped Balances )  
on November 3, 1974
- Export shipments in  
Current Marketing Year
- Daily Sales reported  
November 4-12

--As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our brief experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

OUTSTANDING EXPORT SALES AND EXPORTS - MARKETING YEAR 1974-75  
Summary and Comparisons of Selected Commodities

| Commodity                | : Week : | Outstanding Export Sales |         |        | Cumulative Exports |                     |                 |

EXPORT SALES REPORT

Comments on November 14, 1974, release:

Wheat: Total commitments for U.S. wheat to the People's Republic of China now stand at 1,750,000 metric tons (M.T.), down about 600,000 M.T. from the level at the beginning of the marketing year. During the week new sales to Korea of about 520,000 M.T. more than offset a reported reduction of about 400,000 M.T. to Egypt. Under the daily reporting system 1.2 million M.T. of wheat sales were reported to the USSR.

Feed Grains: New sales during the week were highlighted by European Community (EC) purchases of more than 200,000 M.T. of corn and about 150,000 of barley purchased by Korea. Under the daily reporting system 1.0 million M.T. of corn was reported sold to the USSR.

Rice: A purchase of 35,000 M.T. under Title I, PL 480 by Cambodia highlighted rice sales activity during the week.

Soybeans: During the week, exports totaled 329,000 M.T., including shipments to the following countries (in 1,000 M.T.): Japan 134; Netherlands, 88; West Germany, 49; Spain, 20; Italy, 15; Taiwan, 14. For 1974/75, crushing capacity in Western Europe is estimated at 11.5 million M.T., including 9.4 in the EC. If operated at an assumed 85 percent of capacity, plants in EC countries will require about 8.0 million M.T. in 1974/75. USDA estimates indicate exports of about 6.9 million M.T. to the EC, of which 6.5 are expected to remain in the EC for processing with the remainder being shipped to other European countries. Brazil is expected to supply practically all of the remaining 1.5 million M.T. to the EC.

Soybean Cake and Meal: During the week, exports of soybean cake and meal totaled 74,000 M.T. with West Germany, at 24,000 M.T., taking the greatest quantity. Sharp increases in outstanding export sales to Eastern European countries and to some EC countries were reported. It appears likely that some sales to unknown destinations are being transferred to known destinations since the decrease in the former during the week was approximately equal to the increase in total commitments to known destinations (including exports).

Cotton: The unusually slow movement to date can be attributed to the current stagnation in textile activity around the world because of inflation and the general economic turndown in many countries. However, shipments in August-October are usually below the annual rate for the full year since new crop cotton is not available in large volume until November-December.
